

Name of dataset: tb2 (Tension Board 2)

Important Tables:

- 1) Holes
 - a) Hold_ID, X and Y coords, mirrored position
 - i) Match ID to X and Y coords
- 2) Climb_cache_fields
 - a) Climb_uuid, total number of ascents, display difficulty, quality average
 - i) Match climb ID to display difficulty
 - ii) Sort by total number of ascents
- 3) Difficulty_grades
 - a) difficulty (1 - 39 scale), V-scale (V0 - V22), Font-scale (Scale not used)
 - i) Match base difficulty scale onto V-scale
 - ii) Extract scales to be used as constants
- 4) "Climbs"
 - a) climb_uuid, setter info, board constraints, angle, frames, no_match
 - i) Extract frames (climb string) and other board info
- 5) Beta_links
 - a) climb_uuid, instagram, angle
 - i) Match climb ID to angle
- 6) Placement_roles
 - a) Placement_id, hold role number, name, led and screen color
 - i) Extract constants for placement role information
- 7) Product_sizes
 - a) product_id, edge constants, wall name, description, image file
 - i) Match product_id to edge constants
 - ii) Get description and image file
- 8) Placements
 - a) id, layout_id, hole_id, set_id, default_placement
 - i) Match ID to other IDs
- 9) Product_sizes_layout_sets

- a) id, product_size_id, layout_id, set_id, image_filename
 - i) Match ID to other IDs
 - ii) Match ID to image_filename

Other:

- 1) Attempts
 - a) attempt_id, ranking_position, tries/days/months/years till completion
 - i) Match attempt ID to attempt name string
- 2) Products
 - a) Product_id, board_name, board_info
- 3) Layouts
 - a) layout_id, product_id, board_name, board_info
- 4) Products_angles
 - a) Product_id, angle
 - i) Match ID to angle set
- 5) Sets
 - a) set_id, hold material (plastic, wood, set number), hsm
 - i) Match ID to hold_material
 - ii) Idk what hsm is it came up in the "Climbs" Table
- 6) Shared_syncs
 - a) Last time data was updated
- 7) Leds
 - a) Id, hole_id, position
 - i) I think this for the position of led lights on the holds
- 8) Climb_stats
 - a) Climb_uuid, angle, --
 - i) This table appears broken with no ID listed and a no-name col
- 9) Other
 - a) Some Tables are blank or contain board and td2 metadata / scripts
